

News March 2013

Published 28 March 2013

The big news for this month is Gareth became a father for the second time. Baby Imogen arrived safe and well at the beginning of the month, much to mum and dad's delight. Gareth is now back from paternity leave and currently making a big dent in our coffee stock.

Back in the world of websites, we have launched the new site for Fortis Estate Planning [\[hyperlink\]](#). Take a look at the site and others in our portfolio to see what we can offer your company. We also have many more sites that are just about to be launched, including a number of e-commerce sites, so it's been a busy time here in the TCRM offices.

We've also been discussing the benefits of responsive web design. This is a layout which alters depending on the size of the screen you're viewing the site on. So instead of creating separate mobile sites, or apps to run on smart-phones and tablets, your website can optimize itself to any computer or device automatically.

Please get in touch if you'd like some more information.

Cheerio for now. Much to do so I'm off back to the website factory!
